Expectations for Info & Action Package

This Info & Action Package is a downloadable booklet for you to email to all your friends, relatives and other interested parties…with a message asking them to email to all of THEIR contacts and friends, and so on down the line.

Hopefully this Info & Action Package will "go viral" and reach millions of people.
Millions of parents can create a world of Truth, Freedom & Love for our children!!!
Essential for global Heart-Mind Coherence: go to www.HeartMath.org

This method is exponential networking: If everyone contacts 3 others, then 3 x 3 = 9 x 3 = 27 x 3 = 81 x 3 = 243 x 3 = 729 x 3 = 2,187 x 3 = 6,561 x 3 = 19,683 Census bureau says there are 63 million parents in the United States. We just need to complete the above exponential network beginning with 1500 couples, or any combination.

Individuals will choose their own level of participation: Childrens Constitutional Convention delegate, Global Freedom Trilogy distribution network (a PMA) and/or equity partner with Quantum Living and Learning Games (QLLG). Ask for link to explanatory video, 4 min. 31 sec.
We need volunteers to help with all levels of this project but especially translators for the 8 languages mentioned under the photo of "Great Granddaughter, Peaceful Warrior." Next page.

Quantum Living & Learning: Interdimensional self-empowerment for Sovereign Beings.

With your cooperation and participation we will Make It So for 240 million people in 8 languages: English, Mandarin, Hindi, Spanish, French, Arabic, Bengali, and Russian.

Food for thought, or as we old timers used to say: "Put this in your pipe and smoke it!"

Imagine that you are the Beast, Wetiko, W.E.F, W.H.O., Great Reset Klaus Schwab, global depopulation by vaccinations chief, Bill Gates, and/or the other Global Elites.

You want to take over and enslave humanity "the easy way", without a struggle. Just convince the vast majority of humans NOT TO RESIST OR TAKE ACTION when their "thought leaders"....governmental, religious, scientific, educational, financial, TV personalities and others, create an overwhelming FEAR of some threat (flu virus???)

Most people have been programmed by main stream media, social media and the FREE public education system (Thought Leaders) to believe ordinary humans are powerless and helpless when faced with a global threat to their health and welfare.

What do we do when we have been educated, trained, programmed NOT to think for ourselves but trust the "experts" to analyze and think for us. If the "experts" violate our Constitutional Bill of Rights and tell us to abandon our family members, shut down our businesses, religious and all social activities, we MUST obey because we have given our personal power to the "Experts", "Thought Leaders", Power Mongers", Global Elites, who always have our personal security, safety and welfare as their highest priority. So we are told. How sad and tragic that so many have given up their birthright to seek Truth, Freedom and Love (free will) above all else.
"Those who would give up essential liberty, to purchase a little temporary safety, deserve neither liberty nor safety." Benjamin Franklin (1706-1790)

What a perfect strategy, just create enough FEAR and most of us fall on our knees... EVIL has actually conquered humanity and is well on the way to enslaving countless future generations of children using a weaponized "Public Health" issue.
See how simple it is... with "mind control".

We have an Action Plan
It may not work in the short time available to us.
If you have, or know of, a better plan, we would like to help bring it to fruition.
Otherwise, please consider helping us reach 240 million people in 8 languages.

Invitation To A Global Constitutional Convention To Establish A World Of Truth, Freedom And Love For Our Children.

We, the Parents of Humanity's Children, hereby invite all Mothers and Fathers to participate in a Global Convention to create a Constitution for our Children to live in a world of Truth, Freedom and Love.

Truth, Freedom and Love are the polar opposites of the world that exists at this time in history (2023,2024, ???), a world of Lies, Deception, Tyranny, Fear and Hatred, which we have allowed to flourish by our devotion to comfort, safety and security promised by two-faced, powermongering authoritarian thought leaders: Educational, Religious, Political and Scientific. Thomas Jefferson said, "The price of freedom is eternal vigilance." We have not been vigilant.

The "Globalist Elite" behind this culture of Lies, Deception, Tyranny, Fear and Hatred are further defined by Dr. Reiner Fuellmich's International Legal Team and their Grand Jury investigation and criminal indictment of the World Economic Forum and Great Reset entities, whose trans-humanist agenda is to bio-engineer humans into Genetically Modified Organisms (GMOs) by using U.S. Patent Law, patented "vaccinations". Said bio-engineered humans (our children) will then be their "patented" property; to control, use or abuse as they wish.

We, the Parents of Humanity's Children, must emphasize that the "Globalist Elite" Dominators have accomplished the conquest of Humanity with just two of the favorite tactics of history's Dominators:

(a) False flag attacks to distract, deceive and mislead... creating mass fear and hatred.
Think: How to create massive public fear and hatred of ANYONE who owns a gun.
Or: *How to create public compliance and control by claiming Extra-Terrestrial "attacks."*

(b) Divide and conquer. If we claim that our truth is the one and only truth, we are helping the Dominators to divide and conquer. We must make sure our truth(s) is/are inclusive of others, not exclusive.
We, the Parents of Humanity's Children, posit that Truth, Freedom and Love are the highest inclusive priority for all religious or spiritual beliefs, ethnicities, and nationalities (humanity). Holding to this priority unites, instead of dividing.
With this priority, we are all sovereign beings with free will, so long as we respect this intrinsic quality in others. With this priority, all parents are solely responsible for their children.

Throughout history, the warmongering, fear and hate creating Dominators mindset has deliberately killed countless millions of humans and others using this simple divide and conquer tactic on non-thinking, spiritually unaware and fearful populations. If we each maintain our awareness that we are eternal energy beings (souls) using a temporary physical body to fulfill our own unique mission in this physical dimension, we are FEARLESS.

We, the Parents of Humanity's Children, wish to connect, communicate and share information & resources with the global community of Mothers and Fathers regarding the many choke points already created or being created to TOTALLY CONTROL humanity's children, such as: Central Bank Digital Currency (CBDC), Food Production, Distribution of Essential Goods and Services, Communication & Assembly Rights, Transportation & Travel, Education, and Centralized Artificial Intelligence Control of all aspects of human life using China's Social Credit System as a global template. The World Health Organization and Global Elites are creating a Global Totalitarian control system using Public Health as a weapon to enslave humanity.

We, the Parents of Humanity's Children, suggest:

(a) Using Community And Family Empowerment workshops (online & in person) to build national & international decentralized Freedom Hubs.

(b) Creation of an international exponential networking Private Membership Association to teach the Principles of Freedom. If we do not know or understand the Principles of Freedom, how can we manifest a culture of Truth, Freedom and Love?
Example: The Socialist mindset teaches that Democracy is synonymous with freedom when actually democracy (majority vote) allows the largest group, association or gang to define freedom. In truth, freedom is individual sovereignty, with free will, which is the birthright of everyone.

Some of the other names for the Global Elites are: Satanists, Shape Shifting Multi-headed Beast, Wetiko, Barkley's acronym S.N.O.T.S. for Socialist-Nazi-Oligarchy-Totalitarian-Syndrome, God's Chosen People, Trilateral Commission, et al.
Whatever the name, it is the energy of pure evil that wants our children and our individual sovereignty. It wants to genetically modify ALL LIFE ON EARTH for its own pleasure.

Love and blessings to all who read this message. As parents, we must look into the various forms, shapes and disguises of this EVIL Beast and proclaim
YOU CANNOT HAVE OUR CHILDREN!

Introduction

Recently, a lot is being written and said on the subject of human trafficking and modern-day slavery, particularly due to the upcoming release of the highly anticipated film The Sound of Freedom which is set to be officially released on July 4, Independence Day.

This article examines the subject, the film, and all the dark details that surround its foundations, claims, and worries.

It is arguably the most important topic that concerns us humans, for it has to do with our most precious of all, our children.

This article is structured as follows:

1. What is Human & Child Trafficking?
2. Human Trafficking and Forced Labour is a multi-billion-dollar business
3. Child Sex Trafficking
4. Children trafficked en masse at the U.S. Border; 85,000 kids go missing
5. The Sound of Freedom movie, officially released on July 4, 2023, Independence Day
6. Hollywood's Darkest Corners
7. The Corporate Media's attack on claims made against Hollywood, Pedophiles and Adrenochrome
8. The CYM Corporation Leaks
9. Tim Ballard's Operation Underground Railroad
10. Don't be part of the Problem, but rather part of the Solution

1. What is Human & Child Trafficking?

On a broader global scale, Human Trafficking Search (HTS) notes:

> "Human trafficking, trafficking in persons, and modern-day slavery are umbrella terms – often used interchangeably – that refer to the exploitation of individuals through threat or use of force, coercion, abduction, fraud, and/or deception."

HTS lists 6 main types of human trafficking:

1. SEX TRAFFICKING & CHILD SEX TRAFFICKING
2. FORCED LABOR
3. DEBT BONDAGE
4. FORCED CHILD LABOR
5. INVOLUNTARY DOMESTIC SERVITUDE
6. UNLAWFUL RECRUITMENT & USE OF CHILD SOLDIERS

The International Labour Organization estimates that there are 40.3 million victims of human trafficking globally (49.6 million people were living in modern slavery in 2021, of which 27.6 million were in forced labour and 22 million in forced marriage).

According to UNODC's 2020 Global Report on Trafficking in Persons which is compiled using official figures from over 148 countries, one in every three victims detected is a child. Girls are mainly trafficked for sexual exploitation, while boys are used for forced labour [source].

According to the National Human Trafficking Hotline based in the United States,

> Human trafficking occurs when a trafficker uses force, fraud or coercion to control another person for the purpose of engaging in commercial sex acts or soliciting labor or services against his/her will.

There are many myths about human trafficking such as it exclusively involves transporting victims across state/provincial or national borders – which is really *human smuggling*.

In reality, the crime of human trafficking does not necessarily require movement. Victims can be recruited and trafficked in their own home towns, or even their own homes.

Children are trafficked for various reasons.

According to Save the Children based in Connecticut, child trafficking refers to the exploitation of girls and boys, primarily for forced labor and sexual exploitation.

Children account for 27% of all the human trafficking victims worldwide, and two out of every three child victims are girls.

Children are often trafficked for commercial sexual exploitation or for labor, such as domestic servitude, agricultural work, factory work and mining, or they're forced to fight in conflicts.

The most vulnerable children, particularly refugees and migrants, are often preyed upon and their hopes for an education, a better job or a better life in a new country. [source]

> exploitation occurs in various settings, including (but not limited to) brothels, strip clubs, massage parlors, on the street (sometimes coined "track"), or in private homes. Individuals can be trafficked domestically and across international borders. " – Human Trafficking Search (HTS)

According to the ILO, 6.3 million individuals are exploited for sex.

HTS also notes that over half of all children in forced labour are in commercial sexual exploitation.

Women and children are the most common victims found to be trafficked for sex, but men and boys are also trafficked for sex. LGBT identifying individuals, especially transgender individuals, have increasingly been found to be victims of sexual exploitation.

4. Children trafficked en masse at the U.S. Border; 85,000 kids go missing

A U.S. Department of Health and Human Services (HHS) whistleblower, Tara Lee Rodas told Congress's House Judiciary Committee on Apr 26, 2023 (watch from around 01:26:13 to 01:32:00) that the United States federal government has become the "middleman" in a multi-billion dollar human trafficking operation targeting unaccompanied minors at the southern border.

The damning testimony by Rodas who had volunteered to help with Operation Artemis, a plan by the Biden Administration to get control of the humanitarian disaster on the U.S.-Mexico border in 2021, provided some damaging statements about the outcomes for children in the border crisis mess.

Watch the five-minute 45-second clip from her testimony here (alternate video link here).

Save the Children provides a lot of valuable information on child trafficking , including Myths vs Facts.

Apart from sexual exploitation, trafficked children are often used for forced marriages and for forced labour (modern day slavery) with India and the Asia-Pacific region as a whole being prime locations.

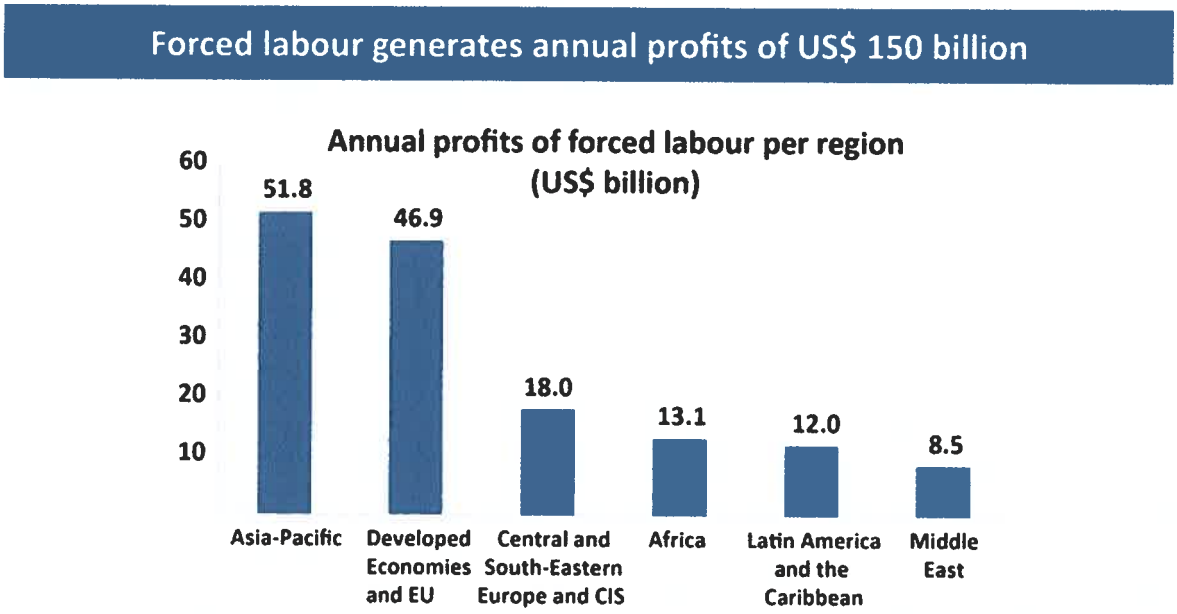
War zones such as the Ukraine, areas of conflict and natural disasters also represent places where children are particularly vulnerable to abduction, sexual abuse and trafficking.

Children are also often lured and deceived online via major social networking platforms such as Facebook or TikTok, or through gaming apps which contain chat platforms [source).

2. Human Trafficking and Forced Labour is a multi-billion-dollar business

Based on research from the United States Department of Health and Human Services (HHS), human trafficking is listed as the fastest growing criminal industry in the world today, surpassing in value the illegal arms industry and only second to the drug trade [source].

The International Labour Organization (ILO)'s estimates profits from forced labour at US$150 billion (annually) according to the latest 2021 figures.



Sex tourism, a worldwide illicit activity that is prevalent in Southeast Asia, accounts for about $35 billion per year.

And as reporter Clayton Morris from Redacted recently noted, child sex trafficking brings in $34 billion a year in revenue. Morris emphasised that as a frame of reference, for 2023 the entire airline industry is poised to make $22 billion in worldwide revenue.

3. Child Sex Trafficking

> "Sex trafficking is when an individual engages in a commercial sex act as a result of force, fraud, or coercion. If the individual is under the age of eighteen, any commercial

Photo source CNS photo/Adrees Latif, Reuters via CatholicPhilly.com.

According to an Article from ZeroHedge, 'Modern-Day Slave Traders': Hawley Demands Probe Into 85,000 'Lost' Migrant Children from last April, Mrs. Rodas said she had been deployed to help HHS's Office of Refugee Resettlement (ORR) reunite Unaccompanied Children (UACs) with adult sponsors in the United States, stating:

> "I thought I was going to help place children in loving homes. Instead, I discovered that children are being trafficked through a sophisticated network that begins with recruiting in home country, smuggling to the U.S. border, and ends when ORR delivers a child to a sponsor—some sponsors are criminals and traffickers and members of transnational criminal organizations, some sponsors view children as commodities and assets to be used for earning income."

The article also noted that according to data from US Customs and Border Protection, approximately 345,000 minors have crossed into the United States unaccompanied since President Joe Biden took office, while a report from the NY Times suggests that the Department of Health and Human Services has lost contact with 85,000 of these minors. Hawley expounded [emphasis added]:

> "The Biden Administration is morally responsible for their fate. The President lifted Title 42 restrictions on unaccompanied children in early 2021," wrote Hawley in a Friday letter to FBI Director Christopher Wray. "Reporting reveals that HHS loosened vetting processes for sponsors and retaliated against whistleblowers who raised these concerns. As a result, thousands of children have been handed over to modern-day slave traders."

The article further noted that in some cases, Rodas says she witnessed adult sponsors who were allowed to take in "10, 20, 30 and 40 children" without any concerns from HHS.

5. The Sound of Freedom movie, officially released on July 4, 2023, Independence Day

The Sound of Freedom is a movie based on the incredible true story of a former government agent, Tim Ballard, who embarks on a dangerous mission to rescue hundreds of children from sex traffickers.

It stars Jim Caviezel who is famous for his portrayal of Jesus Christ in Mel Gibson's 2004 movie The Passion of the Christ. The film was directed by Alejandro Monteverde.

The Sound of Freedom is schedule for its official release on July 4 of this year, on the very fitting Independence Day.

The theatrical trailer for the film can be viewed hereunder:

"Not enough people know this problem exists." – Jim Caviezel

Though The Sound of Freedom film was completed nearly four years ago in 2019, it is only now being released, most likely due to the dark and pervasive nature of child abuse in the Hollywood movie industry.

Disney, who purchased and owns 20th Century Fox shelved the movie for two years, and both Netflix and Amazon passed on distributing it. The film is now distributed by Angel Studios.

Since filming Sound of Freedom, Jim Caviezel has become very outspoken and very involved in the cause of bringing light on the darkness of child sex trafficking.

No Safe Haven For Evil

Evil has conquered Earth and the Inhabitants using lies, deception, tyranny, hatred and fear.
If you don't know this, then this information is not for you. Evil has blinded your perceptions.
It is for Conscious Humans with an extremely strong desire to create a world of Truth, Freedom and Love by **disempowering the Evil Powermongers.** (email wontbark@yahoo.com for this word doc attachment)

We, Conscious Humans, are connected in "Higher Frequency Dimensions" (HFD definition below),
Using our focused intention we are able to deactivate and disable the internal power **and/or** communication systems of the Evil throughout the Earth and Solar System:

Within ALL human and child trafficking networks and groups...disable and disempower !!
Within ALL nuclear weapons systems...disable and disempower !!
Within ALL Directed Energy Weapons (DEWs)...disable and disempower !!
Within ALL Low Earth Orbit satellites...Disable and disempower !!
Within ALL 5G transmission towers ...Disable and disempower !!
Within ALL Billion Watts+ "Space Fence" radars killing millions of wildlife. Disable and disempower !!
Within ALL drone controlling satellites...Disable and disempower !!
Within ALL 220+ U.S. DUMBs (See below)...Disable and disempower !! (No safe haven for evil))
Within ALL global DUMBs in other countries/locations...Disable and disempower !!
Within ALL toxic chemical & vaccine producers...Disable and disempower !!
Within ALL toxic chemical & vaccine distributors...Disable and disempower!
Within ALL propagandizing/brainwashing media...Disable and disempower!
Within ALL W.H.O./ W.E.F, and their vast interconnected NGOs, Disable and disempower!!!
Within ALL EVIL control of U.S. and global financial/monetary systems...Disable and disempower !!
Within ALL EVIL control of U.S. and global education systems...Disable and disempower !!
Within ALL EVIL control of U.S. and global religious beliefs...Disable and disempower !!

If we do not make a continuous, conscious effort to create a world of truth, freedom and love, then EVIL will continue to feed on our negative (or complacent) spiritual and emotional states to manifest the world we now have (2023-2024-???)...lies, deception, tyranny, hatred, fear and unimaginable killing, maiming, agony and suffering. Repeat: The EVIL feeds on low frequency, negative energy.

HFD simple definition: The Cosmos is composed of an INFINITE number of energy frequencies from below the atomic level to planetary to super galactic (and beyond). Our human 5 senses operate in an incredibly small range of frequencies!! HFD is just a slightly higher range of frequencies, where the 5Ts apply: Telepathy, Time Travel, Telekinesis, Teleportation. **The Military-Industrial-Intelligence Complex has been involved in the HFD "playground" for many decades.** They really do NOT want "ordinary humans" to know about these innate (and therefore "deprogrammed") capabilities.!!!
DUMB is Deep Underground Military Base (The Evil's human avatars' safe havens)

Copy and PERSONALLY **(not DARPA internet)** distribute this information to everyone you know who is a Conscious Human (or wannabe) advocate for truth, freedom and love. Please do not waste PRECIOUS time/energy on bio-bots, contacting corrupt politicians or asking **any** governmental, scientific, or religious entity to help. MOST ARE OWNED BY THE EVIL. If they were not, we would not be in this situation, which has been progressing as planned for well over 100 years. (1,000s??)

If you decide to make this world changing effort part of your personal "mission", please substitute your contact information for mine and add the next number after my name to your name so that eventually we might know how many "levels" it took to reach our objective. Maybe just an interesting trivia??
This document needs to be translated and distributed globally in 8 languages. English, Mandarin, Hindi, Spanish, French, Arabic, Bengali, and Russian. Maybe you know someone who can help with this? **Pages 2-3 Suggested reading and contact list.**

Psychotronic and Electromagnetic Weapons: Remote Control of the Human Nervous System

This incisive article by Mojmir Babajek predicted more than 10 years ago, what is happening today, namely the development of informational weapons and the remote control of the human brain.

It was originally published by Global Research on January 31, 2013. As a result of online censorship, this important article is not being picked up by the search engines.

***

In March 2012 the Russian defense minister Anatoli Serdjukov said:

> "The development of weaponry based on new physics principles; direct-energy weapons, geophysical weapons, wave-energy weapons, genetic weapons, psychotronic weapons, etc., is part of the state arms procurement program for 2011-2020,"Voice of Russia

The world media reacted to this hint on the open use of psychotronic weapons by the publication of scientific experiments from the 1960's where electromagnetic waves were used to transmit simple sounds into the human brain. However, most of them avoided saying that since then extensive scientific research has been carried out in this area throughout the world. Only a Colombian newspaper, El Spectador, published an article covering the whole scale of the achievements of this (computerized English translation).

Britain's Daily Mail, as another exception, wrote that research in electromagnetic weapons has been secretly carried out in the USA and Russia since the 1950's and that „previous research has shown that low-frequency waves or beams can affect brain cells, alter psychological states and make it possible to transmit suggestions and commands directly into someone's thought processes. High doses of microwaves can damage the functioning of internal organs, control behaviour or even drive victims to suicide."

The influence of microwaves on living creatures' behavior

In 1975, a neuropsychologist Don R. Justesen, the director of Laboratories of Experimental Neuropsychology at Veterans Administration Hospital in Kansas City, unwittingly leaked National Security Information. He published an article in "American Psychologist" on the influence of microwaves on living creatures' behavior.

In the article he quoted the results of an experiment described to him by his colleague, Joseph C. Sharp, who was working on Pandora, a secret project of the American Navy.

Don R. Justesen wrote in his article:

> "By radiating themselves with these 'voice modulated' microwaves, Sharp and Grove were readily able to hear, identify, and distinguish among the 9 words. The sounds heard were not unlike those emitted by persons with artificial larynxes" (pg. 396).

That this system was later brought to perfection is proved by the document which appeared on the website of the U.S. Environmental Protection Agency in 1997, where its Office of Research and Development presented the Department of Defense's project:"Communicating Via the Microwave Auditory Effect".In the description it said:

> "An innovative and revolutionary technology is described that offers a low-probability-of-intercept radiofrequency (RF) communications. The feasibility of the concept has been established using both a low intensity laboratory system and a high power RF transmitter. Numerous military applications exist in areas of search and rescue, security and special operations" (See web.iol.cz)

In January 2007 the Washington Post wrote on the same subject:

> "In 2002, the Air Force Research Laboratory patented precisely such a technology: using microwaves to send words into someone's head... Rich Garcia, a spokesman for the research laboratory's directed energy directorate, declined to discuss that patent or current or related research in the field, citing the lab's policy not to comment on its microwave work. In response to a Freedom of Information Act request filed for this article, the Air Force released unclassified documents surrounding that 2002 patent — records that note that the patent was based on human experimentation in October 1994 at the Air Force lab, where scientists were able to transmit phrases into the heads of human subjects, albeit with marginal intelligibility. Research appeared to continue at least through 2002. Where this work has gone since is unclear — the research laboratory, citing classification, refused to discuss it or release other materials"

Remote control of the human nervous system

We can only stress again that the world media avoid publishing the full scale of the progress in the research of the remote control of human nervous system. Dr. Robert Becker, who was twice nominated for Nobel Prize for his share in the discovery of the effects of pulsed fields at the healing of broken bones, wrote in his book "Body Electric" about the experiment from 1974 by J. F. Schapitz, released due to the Freedom of Information Act request.

J.F. Schapitz stated:

> "In this investigation it will be shown that the spoken word of hypnotist may also be conveyed by modulated electromagnetic energy directly into the subconscious parts of the human brain – i. e. without employing any technical devices for receiving or transcoding the messages and without the person exposed to such influence having a chance to control the information input

consciously."

In one of the four experiments subjects were given a test of hundred questions, ranging from easy to technical ones. Later, not knowing they were being irradiated, they would be subjected to information beams suggesting the answers to the questions they had left blank, amnesia for some of their correct answers, and memory falsification for other correct answers. After 2 weeks they had to pass the test again (Dr. Robert Becker: Body Electric: Electromagnetism and the Foundation of Life, William Morrow and comp., New York, 1985,.

The results of the second test were never published.

It is rather evident that in those experiments the messages were sent into human brain in ultrasound frequencies which the human brain perceives, but of which the subject is unaware. Dr. Robert Becker, due to those publications and his refusal to support the building of the antennae for the communication with submarines in brain frequencies, lost financial support for his research which meant an end to his scientific career.

Transmitting human speech into the human brain by means of electromagnetic waves is apparently, for the researchers, one of the most difficult tasks. It must be much easier to control human emotions which motivate human thinking, decision making and actions. People who claim to be victims of experiments with those devices complain, aside of hearing voices, of false feelings (including orgasms) as well of aches of internal organs which the physicians are unable to diagnose.

In November 2000 the Committee on Security of the Russian State Duma stated that capabilities enabling remote control of the human nervous system or the remote infliction of health impairment are available to many modern governments .See web.iol.cz

It is rather evident that those technologies are used, in conflict with the Nuremberg code, for experiments on unwitting human subjects. In 2001 the newspaper of the U.S. army, Defense News, wrote that Israel was experimenting with those weapons on Palestinians. Ibid

As well ousted Honduran president Manuel Zelaya, while under siege in Brazilian embassy in Honduras, complained that he had been subjected to an "electron bombardment with microwaves" which produces "headache and organic destabilization" The Guardian, October 2008

When asked by Amy Goodman from Democracy Now: „

> As president, do you know about this in the Honduran arsenal?" He replied: „Yes, of course"

The use of those weapons is time and again reemerging in times of political crisis. According to Russian daily newspapers, during the failed putsch against Mikhail Gorbachov in 1991, general Kobets warned the defenders of the Russian White House that mind control technology could be used against them (Komsomolskaya Pravda, September 7,1991, O. Volkov, „Sluchi o tom chto nam davili na psychiku nepotverzdalis. Poka").

After the putsch, the vice president of the League of Independent Scientists of the USSR,

Victor Sedlecki, published a declaration in the Russian daily Komsomolskaya Pravda where he stated:

> As an expert and a legal entity I declare that mass production ... of psychotronic biogenerators was launched in Kiev (this is indeed a very serious issue). I cannot assert for sure that that were exactly Kiev generators that were used during the putsch... However, the fact that they were used is obvious to me. What are psychotronic generators? It is an electronic equipment producing the effect of guided control in human organism. It especially affects the left and right hemisphere of the cortex. This is also the technology of the U.S. Project Zombie 5". He further stated that due to the inexperience of the personnel who operated them the attempt to use the generators failed

In the USA, at present several hundred people complaining of the remote manipulation of their nervous system are preparing a class action lawsuit against the FBI, Department of Defense and other agencies, requesting them to release files pertaining to their persons, detect the harmful radiations aimed at their bodies and sources of those radiations. As well perhaps over 2000 people are complaining in Russia, over 200 in Europe, over 300 in Japan and tens of people in China and India. Russian politician, Vladimir Lopatin, who was working on Committee on Security of the Russian State Duma and introduced there a bill banning the use of those technologies, admitted in his book „Psychotronic Weapon and Security of Russia" (publishing house Sinteg, Moscow, 1999) that in Russia experiments on unwitting citizens are carried out, when he wrote: „

> Compensation of damages and losses connected with social rehabilitation of persons suffering from destructive informational influence must be realized in legal trial" (excerpts from the book in English
>
> (http://mojmir.webuda.com/Psychotronic_Weapon_and_the_Security_of_Russia, pg. 113).

It should be understood that most of those people pass through mental hospitals. Vladimir Lopatin visited the USA in 1999 as a chairman of the Military Reform Subcommittee of the USSR Supreme Soviet Committee for Issues of Defense and State Security and met with Richard Cheney. At that time he was described as the "leader of a new breed of Soviet dissidents". Then he disappeared from top ranks of Russian politicians.

Why has this research remained classified until present time?

There are two explanations for this: First there is a secret arms race in progress in the world where the superpowers compete to gain decisive supremacy in this area and in this way master the control of the whole world. Second the governments keep those technologies in store for the case that they would not be able to control, by democratic means, the crisis that may arise as a result of their poor decisions. In both cases the era of democracy and human freedom in history will come to an end. According to the declaration of the former Russian Defense minister Serdjukov, there are maximally eight years left within which those weapons will officially become a part of the Russian military arsenal. For democracy this

would mean a beginning of the end.

Anyway, in the past Russians were not resolved to put those means to work. When the construction of the American system HAARP was launched, with the system supposedly being able to target large regions of the planet by vibrating the ionosphere in brain frequencies (in this experiment the brain frequencies were not used, but the HAARP system can transmit in brain frequencies as well), Russia declared its willingness to ban mind control technologies.

The Russian State Duma and consequently , the Interparliamentary Assembly of the Union of Independent States addressed the United Nations, OBSE and the European Council with a proposal for an international convention banning the development and use of informational weapons. According to the Russian newspaper Segodnya in March 1998, the matter was discussed with U.N. secretary general Kofi Anan, and included on the agenda of the General Assembly of the U.N. web.iol,cz, op cit

The ban of mind control technology

It is most likely the USA refused to negotiate this convention and in consequence the ban of informational weapons was not discussed by the United Nations General Assembly. Even in the U.S. congress appeared a bill proposing the ban of mind control technologies http://thomas.loc.gov/cgi-bin/query/r?c107:chemtrails.

But this was only for a very short period of time. The bill was then changed and in the new bill the ban of those technologies was left out of the Space Preservation Bill. Neither the U.S. congress nor the U.S. president made ever an effort to ban mind control weapons. The European Parliament reacted as well to the launch of the HAARP system construction, when it called in 1999 for the ban of manipulation of human beings.

The resolution was passed after the testimony of the American author of the book "Angels Don't Play this HAARP", Nick Begich, which apparently convinced the European Parliament of the possible use of this system to manipulate minds of whole populations. In the report by the European Parliament's STOA (Science and Technological Options Assessment) panel "Crowd Control Technologies" the originally proposed text of the European Parliament's resolution is quoted. There the European Parliament calls "for an international convention and global ban on all research and development , whether civilian or military , which seeks to apply knowledge of the chemical, electrical, sound vibration or other functioning of the human brain to the development of weapons which might enable any form of manipulation of human beings, including a ban on any actual or possible deployment (stressed by the author of the article) of such systems". (40, pg CII, ref. 369). But apparently at the same time the European countries resigned on this intention when accepting the NATO politics of non-lethal weapons.

The same STOA report claims that the USA is a major promoter of the use of those arms and that:

> "In October 1999 NATO announced a new policy on non-lethal weapons and their place in allied arsenals" (pg. xlv) and it goes on:
>
> "In 1996 non-lethal tools identified by the U.S. Army included... directed energy systems" and "radio frequency weapons"European Parliament

(at the bottom of the page, second reference pg. XIvi).

Directed energy system is further defined by the STOA document:

> "Directed energy weapon system designed to match radio frequency source to interfere with human brain activity at synapse level" (at the bottom of the page, first reference, Appendix 6-67). Since 1999 those weapons have been upgraded for another 13 years. European Parliament

In 1976 the future National Security advisor to president Carter, Zbygniew Brzezinski, wrote a book "Between Two Ages, America's Role in the Technetronic Era" (Penguin Books, 1976, Massachusets). In the book he predicted "more controlled and directed society" based on the development of technology, where an elite group will play a leading role, which will take advantage of persisting social crises to use "the latest modern techniques for influencing public behavior and keeping society under close surveillance and control".

The use of mind control technologies was predicted as well in the publication of Strategic Studies Institute of the U.S. Army War College, published in 1994

http://www.strategicstudiesinstitute.army.mil/pubs/display.cfm?pubID=241.

The scenario for the year 2000 expected the growth of terrorism, drug trafficking and criminality and drew a conclusion:

> "The president was thus amenable to the use of the sort of psychotechnology which formed the core of the RMA (revolution in military affairs)... it was necessary to rethink our ethical prohibitions on manipulating the minds of enemies (and potential enemies) both international and domestic...
>
> Through persistent efforts and very sophisticated domestic "consciousness raising", old-fashioned notions of personal privacy and national sovereignty changed. As technology changed the way force was applied, things such as personal courage, face-to-face leadership, and the 'warfighter' mentality became irrelevant."...
>
> "Potential or possible supporters of the insurgency around the world were identified using the comprehensive Interagency Integrated Database. These were categorized as 'potential' or 'active', with sophisticated personality simulations used to develop, tailor and focus psychological campaigns for each". So the Institute of Strategic Studies supposed that in the year 2000 those technologies would be that advanced that it will be possible to deprive human being of his freedom and adjust his personality to the needs of ruling elite. Most probably those technologies were at this level already in 1994.

Censorship

The attempts to make the general public acquainted with the existence of those weapons are, with respect to the fact that it is evident that democratic public would require immediate ban of those technologies, systematically suppressed. Vladimir Lopatin wrote:

> „The arms race is speeding up as a consequence of classification. Secrecy – this is in the first place the way to secure cruel control over the people... the way how to curtail their creativity, turn them into biorobots...", and that psychotronic war "is already taking place without declaration of war, secretly...

Only if the work on mind control problem is no more covered by the screen of secrecy, extraordinariness, mysteriousness, if complex, open scientific research with international participation, is carried out, the psychotronic war including the use of psychotronic weapon can be prevented".

The article "Informacni zbrane ohrozuji demokracii a lidstvo" was deleted from the website of the Czech internet newspaper Britske Listy (www.blisty.cz). The sharing of the original web address of the English version of the same article – *Means of Information War Threaten Democracy and Mankind* – is blocked on Facebook and a similar article was deleted from the webpage of the Australian magazine "New Dawn".

There exist no legislations punishing the use of those technologies by governments. Only in Russia and some of the states in the USA there are legislations punishing the ownership or trading with those technologies by non governmental entities. For example in the state of Michigan the sentence for this crime is equal to the sentence for ownership or trading with weapons of mass destruction.

Incisive article by Peter Koenig first published by Global Research on June 14, 2023

***

DARPA Neurologist and Chief of the Neuroethics Studies Program at Georgetown University, Washington DC, Dr. James Giordano, who is also a weapons expert, started his presentation at West Point NY Military Academy by saying, ***"The brain is and will be the 21st Century battlefield. End of story."***

DARPA stands for *Defense Advanced Research Projects Agency, a Pentagon thinktank.*

Dr. Giordano talks about how Directed Energy can be and is being weaponized. Individuals' brains can be targeted by microwaves, the type of 5G and soon to come 6G, of which you see antennas growing like mushrooms all over the word.

They tell you, it is to make your internet, and ever more sophisticated computers and smart phones faster, with more outreach capacity – and to help advance digitization.

This may all be true to some extent, but the real reason behind these microwave towers is to target YOU, the individual.

implementation.

Klaus Schwab, eternal CEO of the World Economic Forum (WEF), published his book, "Shaping the Fourth Industrial Revolution", already in 2018.

In it he writes about such significant topics as *Embedding Values in Technologies; The Internet of Things; Data Ethics; Artificial Intelligence and Robotics*; and a special chapter on "***Altering the Human Being***".

In this chapter, Schwab addresses biotechnologies, and neurotechnologies, transhumanism – precisely the science that Dr. Giordano was talking about in 2018 at the West Point Military Academy, and which is in full implementation.

If we connect the dots, we realize that the "Brain as the Battlefield of the Future" is *NOW* and that we were warned way ahead. According to Dr. Giordano, the science of neurotechnologies has started some 40 years ago and he, Giordano, has been part of it for at least 35 years. Therefore, warnings have been all over the place, at the latest by Klaus Schwab's "Fourth Industrial Revolution" (available from Amazon).

The Death Cult has again given people warnings, according to its "rules" – way ahead of time, so, *They* may be successful.

Why is it, that we never take note of such warnings?

Because we do not believe in so much built-in evil in humanity? Or, because we do not want to leave our "comfort zone", our dystopian view of a "safe world"? *They* know it. And we MUST break that boundary between comfort and reality. If not, we are doomed.

"If you are targeted there is virtually nothing you can do," says William Binney, ex-NSA Technical Director and whistleblower. The NSA is the US National Security Agency, one of 15 US Intelligence Agencies.

If you want a lead-demonstrator to stop demonstrating, you target his brain with ultra-shortwaves.

We by now know them as 5G. You make them depressed, so they do not want to demonstrate anymore; you make them suicidal and the problem is resolved. You do this as many times as you want and create an ambiance of depression. These are paraphrased words of Barry Trower, ex-MI5 Microwave scientist and whistleblower.

Mr. Trower adds, that low-level micro-waves can cause all sorts of cancers and leukemias and further elaborates that for the past 40 years or so the UK Government, plus basically all the Anglosaxon governments, have been lying to their people, to protect not only the high-

the evil objective of total surveillance and enslavement that they have planned.

Today, we gradually see what this "plan" entails.

Through "Electronic Telepathy", Trower adds, we are able to monitor the brain. If at one point, technology foresaw that tiny, hardly visible chip-implants were necessary in the brain to be able to electronically access individuals' thinking – hence the *highly magnetic graphene oxide* in many of the covid vaxx-injections – this may no longer be necessary.

In other words, we are all vulnerable – vaxxed or unvaxxed – to mind interference through the worldwide coverage of 5G shortwaves. And the worst is, we may not even notice when it "hits" us.

Mind manipulations may take many forms. One of them is that people physically hear voices – it is not that people are imagining voices, but they can physically hear voices... *it can be anything, anything you want to hear, or you are scared to hear, angelic voices or diabolical voices*; to repeat the words of neuroscientists.

This technology may have been applied to the US Embassy personnel in Havana, first reported by US and Canadian Embassy staff in Havana, Cuba. The so-called *Havana Syndrome*, of 2016. This may be a cluster of idiopathic symptoms experienced mostly abroad by U.S. government officials and military personnel. The symptoms range in severity from pain and ringing in the ears to cognitive dysfunction.

The *Havana Syndrome* has apparently now also been reported by US Embassy staff in China.

DARPA let a couple of contracts in 2011 / 2012 with the University of California for what is called "electronic telepathy", to be able to monitor the brains of people at distance and to determine what they are thinking.

Under a separate contract the university was to investigate sending in signals to the brain of a person, literally sending them messages *saying* what they must think – and do. This is where the technology is today.

This could be used in your private life, as well as your professional life. It means, already today, they could make you do and behave as whatever they would like. *They* could make you a murderer, a cheater or just simply obedient to orders that may follow.

To repeat: *"What you must know is that the brain is and will be the 21st Century's battlefield"*, says Dr. James Giordano, DARPA neurologist, during his talk at the Modern War Institute at West Point NY.

It is important to remember, especially since we should pay more attention to our surroundings, to people's behavior, than what we are used to. We may deduct many lessons. So, that we may continue and expanding the field of connecting the dots.

In the video below, you will see a chart, indicating that Neuroscience, Neurotechnology in the Narcotics and Special Investigation Division (NSID), part of DARPA, has been *"Valid, valuable and already in NSID use since 2014."*

The technology could be used to prompt you to commit mass murder. Are some of the "sudden and unexpected" school and shopping mall mass shootings are triggered by such mechanisms?

This is a distinct possibility, because in most cases the shooter is not apprehended and brought to justice, but immediately killed on the scene by the police, lest he might recall what happened to him and divulge the secret in court, *the NSID use of the brain as a battlefield.* In most cases the police simply say the "culprit" was know to the police, and / or had already a police record. This is to disguise you from thinking further.

Why are *they* doing it? *They*, being the "monsters", which cannot easily be called humans.

To create terror, constant fear, to keep you on your toes. To get you used to terror and violence, as worse, much worse is to come, if they have their way. And we just comply, become depressed and passive, instead of rebelling in unison and Peace, but strongly rejecting the dominion of a few over us, the many.

Curiously, the Fourth Industrial Revolution does not give one single valid reason why all digitization, transhumanism, total control of humanity is good for humanity and for Mother Earth; nor does the Great Reset, nor does UN Agenda 2030.

We must stop this abuse of humanity, the human enslavement for the benefit of a few. For example, we can do so, among other actions, by collectively and in solidarity disabling the 5G / 6G antennas; by staying away as much as possible from vaxxes, from medication altering your brain activities, like causing depression, and extreme cheerfulness. Stay away from mainstream medication and especially from short-wave antennas.

Remember, scared people are easier manipulated. And that is one of the end goals, to manipulate you according to *their* will.

The DARPA expert, Giordano, who is also a prominent scientist in the US Health and Human Service Department – that speaks for itself – also talks about non-invasive technologies, such as the so-called "N3 Program", the neurosurgical, neuromodulation and narcotics program.

> "The idea is to put minimal size electrodes in your brain, for only minimal intervention to be able to read and write into the brain function. In real time. Remotely..... influencing in ways that are kinetic and non-kinetic the attitudes, believes, thoughts, emotions, activities; look at the power and tools that brain sciences afford."

This was the level of science in 2018, when Dr. Giordano gave his infamous speech at West Point. In the meantime, neuroscience has leaped forward, so that implants are no longer necessary.

Ex-MI5 Microwave scientist, Barry Tower, explains how *they* destroy a targeted individual. He says,

> "If you want to cause a specific psychiatric illness, you would have the microwave beam always target a specific gland, or a specific part of the brain, or an eye, or a heart..." And there is nothing you can do. "If that doesn't work, *they* can always send the FBI, take a photo, and then take you out in other ways."

Intelligence communities, even those within governments, with the help of their algorithm-assisted surveillance tools, become so powerful that they escape the boundaries of the state for which they are working, become independent, and control the state that should control them.

We are moving in warp speed towards a *Nazi-Stasi State* which we see coming, but are incapable of doing anything against it, because we are not connected with each other, we are kept apart as individuals, with our little individual advantages and special treats – keeping us on individual leashes, purposefully away from uniting with others.

"Stasi" – for those, too young to remember, is a colloquial term to describe the East-German Ministry of State Security.

This affects not only the United States, but countries all around the world, especially the western world, which is still intent to remain *THE* Empire, emerging into a One World Order (OWO).

This can happen only with (i) a massively reduced population, to reduce resistance; (ii) with a scared-to-death population; and eventually, (iii) with the survivors transformed into easily manipulable transhumans.

How that works has very eloquently been demonstrated in the video above. Below is a summary version but equally explicit (23 min. video).

Is that the future that awaits us?

It sure looks like it, especially since most people, maybe as many as 99.999% of the people, have no clue, and are totally vulnerable but, as such, perfect guinea pigs for trials, to perfect their "brain battlefield", so to speak.

This is not a life worth living. But suicide is not the answer. To the contrary, stepping out from under this diabolical system, being openly promoted by the World Economic Forum (WEF) with "The Great Reset"; WHO, with the international QR code-based vaxx and travel certificate enslavement; and the United Nations Agenda 2030, that may be read at par with The Great Reset.

The UN, what you may least believe, the UN with their Agenda 2030, with targets and goals virtually identical with the WEF's Reset, has ceased to be what we all believe it is and what it was supposedly created for – supporting and enabling World Peace.

This cessation of "Peace Maker" of the UN system has started gradually, already decades ago. In fact, as far back as the Club of Rome's "Limits of Growth" (1972), when inspired by the Rockefeller Brothers, the UN was to gradually follow the *Limits of Growth* agenda which had to do with massive depopulation and – yes, *climate change*.

A corner stone of change was the first United Nations Conference on Environment and Development (UNCED), also known as the 'Earth Summit', in Rio de Janeiro, Brazil, in June 1992. From then on followed almost on an annual basis the infamous UN sponsored COP conferences (COP – Conference of the Parties).

The last one, COP27, took place in November 2022 in Egypt. The annual repetition of COPs is a well-studied method of social brainwashing, manipulation à la Tavistock – has worked wonders. It is today hard to find anybody under the common people, who does not believe in the CO2-emitting man-made *climate change*. No matter what evidence to the contrary is produced.

The UN sell-out to a corrupt elite has taken a visible and giant step forward with the

the brain of most people, before we can even start resisting and move into another sphere of vibration.

However, like with everything spiritual and dynamic, once a critical mass has started with critical thinking the move into the Light may be fast.

Moving into the Light is what is predicted for 2023 / 2024. In no ways should this prediction be taken as a "lean-back" and *watch-what-happens* encouragement. To be FREE is only a right, if we defend it and fight for it. Let us not leave cracks for diabolical seduction.

Before we can step out, we must recognize these diabolical "Illuminati" methods and stand up in unison against them.

This writing is about spreading this information on the "*brain as the ongoing and next battlefield*". Many will find it so off their current-thinking matrix, they will just shake their heads in disbelief, or calling such facts and news "misinformation". Many of us, have been there. It does not matter. We must continue the offense with the truth.

The field of those who start thinking on their own, is growing; of those who come to the same conclusions, that we are being enslaved by a small but powerful elite, and the evidence that it is high time to escape this enslavement, is overwhelming.

Indeed, the era where our brain is the next battlefield needs to be fought against with all our vigor.

We do not want battlefields of any kind. We want PEACE.
